Overview

- USTC Mission
- Transportation and the Nuclear Renaissance
- Summary

United States Transport Council

- Formed in 2002 during the Yucca Mountain Ratification debate to provide factual information on nuclear materials transportation, experience & safety
- Comprised of 29 member companies from the transportation sector including suppliers and customers
- Principal focus is transportation education, policy consensus and transport community business issues
- Current principal areas of interest include a growing array of front-end commerce issues, transportation-related elements of the Yucca Mountain, Waste Isolation Pilot Plant (WIPP), Global Threat Reduction Initiative (GTRI) and Global Nuclear Energy Partnership (GNEP) programs

United States Transport Council Activities

- Annual National Transport Summit
- USTC Distinguished Leadership Award
- International Fact-Finding Missions
- USTC Speakers Series
- Annual Stakeholder Workshop
- Member, US DOE Transportation External Coordination Working Group
- Co-manager, Yucca Mountain Task Force
- Who's Who in Transportation

United States Transport Council 2007 Membership

- Alaron Nuclear Services
- American Tank & Fabrication
- AREVA, Inc.
- Burns & Roe Enterprises, Inc.
- Carmen Group Incorporated
- CH2M Hill
- Columbian Hi-Tech, LLC
- ConverDyn
- Dairyland Power Cooperative
- Duke Energy
- Edlow International Company
- Energy Solutions
- Exelon Generation Company, LLC
- General Atomics
- General Electric / Hitachi
- Hitachi Zosen, USA
- Kiewit Federal Group
- MHF Logistical Solutions
- NAC International
- Northrop Grumman
- Nuclear Energy Institute
- Parsons Infrastructure & Technology
- Pittsburgh Logistics Systems
- Tetra Tech, Inc.
- Tri-State Motor Transit Company
- TW Metals
- USEC, Inc.
- Visionary Solutions, LLC
- Westerman Companies

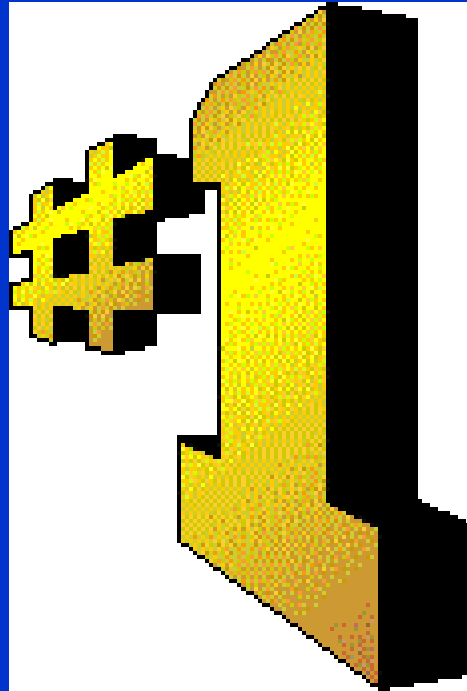

Transportation and the Nuclear Renaissance

All Roads Lead to Transportation

Safety and Security Performance is Job One

Think Globally, Act Locally

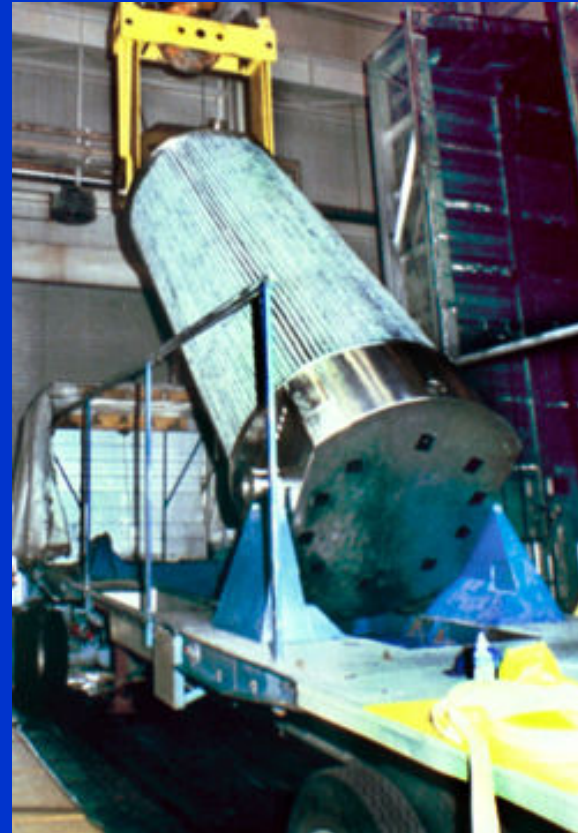

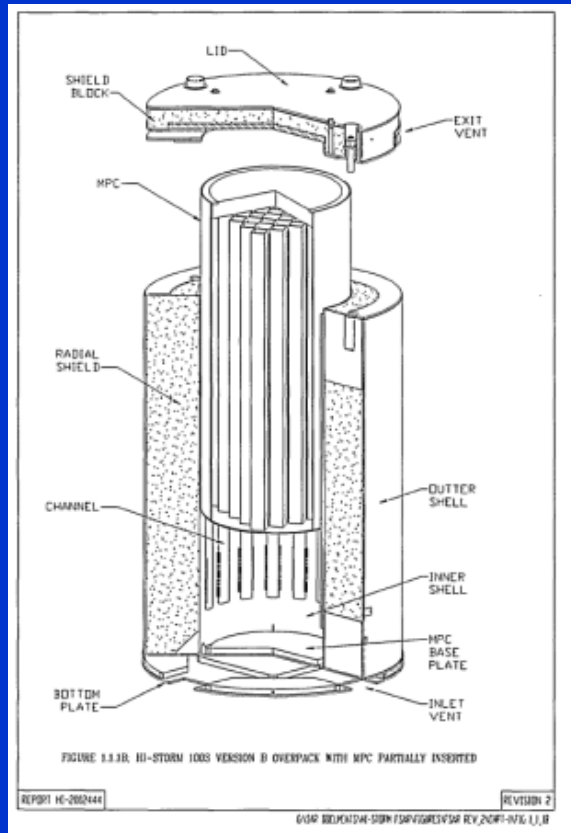

Risk Based Communications and Transparency are a Prerequisite

Artful Constructive Engagement Can Succeed

There is Nothing Like the Real Thing

There are things we like about the Nuclear Waste Policy Act.....

Sec. 137.(a) (2)

The Secretary, in providing for the transportation of spent nuclear fuel under this act....,shall utilize by contract private industry to the fullest extent possible....

There are things we **don't** like about
the Nuclear Waste Policy Act.....

"The Secretary [of Energy] shall....."

We've Never Met an Acronym We Didn't like

TAD

GNEP

GTRI

"NMSS/DSFST/LID"

A Journey, not a Destination

Summary

Thank You for Your Attention
